BAPTIST CONGREGATION.

Formally Calls a Pastor. Rev. A. J. Reamy, of White Springs Selected by the Church.

At a conference of the members of the Baptist church in this city held after Sunday School last Sunday a formal call was extended to Rev. A. J. Reamy now pastor in charge of the churches at Jasper and White Springs, to come to Madison as pastor of the church here.

The pulpit committee of the church is composed of Messrs. W. P. Knight, John H. Rowe and S. A. Hinely.

Mr. Reamy came to this State from Virginia about two years ago to accept the pastorate of the church at Jasper. He is an able preacher and a Godly man and the church here will indeed be fortunate if it secures his services. The committee is now in correspondence with him and it is sincerely hoped that satisfactory arrangements will be made and that Mr. Reamy will accept the charge offered.

SIMPLE COLDS.

Cense to be simple, if at all prolonged. The safest way is to put them aside at the very beginning. Ballard's Horehound Syrup stops a cold and removes the cause of colds, 25c, 50c and \$1.00 bottle at D. G. Smith's.

Allen's New Orleans Minstrels.

This aggregation of negro artists gave an exhibition in Madison Monday night to a tent full of people. The company is under white management but the performers are all of the colored persuasion. Taken altogether the performance was very creditable, and there was nothing said or done by the performers which was in the slightest degree offensive or contrary to good taste. An excellent quartette is one of the leading features of the show and their voices blended finely in popular songs. The street parade was unique and thoroughly enjoyed by the many who witnessed it.

A LIFE AT STAKE.

If you but knew the splendid merit of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It may save your life. Sold by D. G. Smith.

Mr. Flagler's Generosity.

Some time last year Mr. Flagler gave \$10,000 to help build a gymnasium at Lake City for the use of the State Agricultural College, conditional upon an amount of its equipment by the legislature. A resolution was adopted providing for this appropriation in the sum of \$2,500, but the question of the right to appropriate money by concurrent resolution arose, and being referred to the Supreme Court, it was decided that the Legislature had no right to thus appropriate funds. Learning of this Mr. Flagler notified Hon. Geo. W. Wilson, president of the board of trustees, that \$20,000 had been deposited to the credit of the College to be used as needed in building and equipping a better and more complete gymnasium than was at first contemplated.—Miami Metropolis.

FLORIDA PRESS ASSOCIATION.

Arrangements Perfected for the Annual Meeting to be Held in Pensacola, Beginning March 26th, and Lasting Four Days.

At a meeting of the Executive Committee of the Florida Press Association held last Thursday evening in Jacksonville arrangements were perfected for the annual session of the Association which will be held in Pensacola. The Association will convene Wednesday morning, March 26th, and the session will be of four days duration. From the Times-Union and Citizen of last Friday we take the following report of the proceedings of the executive committee:

"The composite paper to be published during the meeting was also considered. For this paper, the Florida Press Bulletin, the Times-Union and Citizen will again offer prizes, which will be announced later.

"It was decided that the committee on publication should take up the question of the composite paper at once, and it was the sense of the committee that a canvass of Pensacola for advertisements in it should be made, so as to give ample time for the work to be done before the publication; that is, at least thirty days before the publication. The expenses of soliciting the advertising are to be paid by the association on a percentage basis of the advertising secured.

"The following list of papers to be read before the association and editors to prepare and read them was adopted:

"History of Journalism in Florida—Frank E. Harris, Banner, Ocala.

"Annual Poem—Tom F. McBeath, School Exponent, Jacksonville.

A GOOD RECOMMENDATION.

"I have noticed that the sale of Chamberlain's Stomach & Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by all druggists.

PRETTY WEDDING.

Howell J. Gannon and Miss Lola Beasley United in Marriage At The Presbyterian Church Tuesday Evening.

A very pretty wedding was that at the Presbyterian church in this city Tuesday evening when Mr. Howell J. Gannon and Miss Lola Beasley were united in the holy bonds of wedlock by Rev. E. P. Mickle. The church had been beautifully decorated by loving hands with palms and ferns, and an arch of green from which was suspended a floral horseshoe marked the spot where the bridal party stood during the ceremony. When the doors were opened the ushers, Messrs. T. C. Smith and L. A. Fraleigh, were kept busy finding seats for the great number who had come to witness the ceremony. Within a few minutes of the appointed time the strains of Mendelssohn's wedding march sounded forth from the organ where Miss Mary Lou Thomas presided and all eyes were turned to the doors where entered the bridal party, the groomsmen in the left aisle and the bridesmaids in the right. First came the ushers and then the attendants, Phil J. Parramore and Miss Orena Beasley; J. T. Vann and Miss Jessie Harris, of Lake City; B. W. Lee, of Live Oak, and Miss Kate Beasley; little Hattie May Beasley, ring bearer and Lilla Fraleigh, flower girl. Then came the bride supported by her sister, Miss Randall Beasley, as maid of honor, and the groom attended by his best man, W. H. Little, of Live Oak. Arriving at the altar the attendants crossed to the opposite sides and the bridal couple met and faced the congregation. Dr. Mickle then arose and solemnly and impressively pronounced the words which united these two young lives for all time. The bridesmaids were gownned in white organdie over white silk, with white sashes, and carried bouquets of pink camellias and asparagus ferns secured by pink ribbons, with the exception of the maid of honor who wore white organdie over pink silk, with pink sash. The fair bride was handsomely gownned in a white satin dress with tulle veil, and carried a bouquet of Plomosa ferns, white narcissus and hyacinths and wore a diamond brooch and hyacinths in her hair. Immediately after the ceremony the bridal party were driven to the home of the bride's parents, Mr. and Mrs. D. P. Beasley, where a reception was held which was attended by a large number of the friends of the newly married. The house was artistically decorated with bamboo, ferns and palms. The wedding supper consisted of salads, meats, jellies, cakes and other good things. A large number of beautiful and costly wedding presents attested the popularity of the contracting parties.

Mr. and Mrs. Gannon departed Wednesday afternoon for their future home at Live Oak where the groom is a prosperous young business man. May their married life be filled with happiness and prosperity is the wish of all.

REMARKABLE CURE OF CROUP.

A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got the bottle cough medicine, my boy would not be on earth to-day.—JOEL DEMONT, Inwood, Iowa. For sale by all druggists.

Schleys in Washington.

Washington, Jan. 21.—Admiral and Mrs. Schley, after ten days in Savannah, during which they were feted as the guests of the city, and entertained by friends and relatives, left that city yesterday afternoon at 1:55 o'clock by the Southern Railway for Washington, and arrived here this morning. While in Savannah they were the guests of Gen. and Mrs. W. W. Gordon, who spared themselves no pains for the pleasure of their visitors. Admiral Schley will consult to-day with Counsel Rayner regarding the appeal from the finding of the Board of Inquiry which will probably be presented to President Roosevelt to-morrow.

SICK HEADACHE

is the bane of women. What is wanted is not relief alone, but relief and cure. Dr. Loyal Ford's Dyspepticide will cure sick headache for all time. It makes the stomach right. Sold by D. G. Smith.

The Value Of Cotton Seed.

It is in the memory of many Floridians when cotton seed was thrown away as so much trash, it being unprofitable beyond planting purposes. Now this once worthless farm product is worth about as much as the lint, and under new processes of preparing the seed for cattle food and extracting oil therefrom they will ultimately be the most valuable part of the plant. This will greatly help the cotton growing sections of Florida as well as other States.

It is announced that a new process has been discovered which simplifies greatly the treatment of the seed, and yields both a larger quantity and a better quality of products. The claim for this new process is set forth as follows:

The hulls and lint removed from a ton of seed by the new process are said to yield 1,000 pounds of paper stock, as compared with less than 400 pounds by the method now in use; and this paper stock is worth, in the condition left by the new processes, from \$10 to \$20 a ton, as compared with between \$3 and \$4 per ton for the amount of paper stock recovered by the usual method. This alone would constitute a net gain of from \$9 to \$18 a ton, or, on the basis of last year's product, it is contended, would save to the cotton growers of the South about \$35,000,000.

In the process of extracting the oil, the oil cake is freed from the chemical and becomes adapted for use as a food product for cattle or as a fertilizer. Under the usual method it is possible to extract only about 40 per cent of oil from the seed, while the new process, its backers assert, makes possible the extraction of practically 100 per cent and the cost of producing crude oil by the new method is reduced 50 per cent.—Jacksonville Metropolis.
